Coalition to Repeal the Income Tax

## What is the 16th Amendment?

The 16th Amendment gives Congress the power to directly tax individuals and to withhold the funds from our paychecks. The 16th Amendment has led to the overgrowth of the federal government and to the IRS, a sprawling bureaucracy with vast and intrusive powers over our businesses and personal lives. It's time to repeal the 16th Amendment and rein in the IRS!
