

Statement of Jenny Beth Martin, co-founder of Tea Party Patriots, on Lois Lerner's bonuses:

"Nothing the IRS does surprises me. The [news](#) that Lois Lerner collected \$129,000 in bonuses during the three years she was wrecking people's lives, however, is particularly galling.

"Millions of hardworking Americans are hurting and struggling to make ends meet. Meanwhile, it's buckets of cash for the woman who persecuted her president's perceived enemies. This administration penalizes achievement and success, and rewards those who further its big-government agenda. Sad."
